RE: Sabbatical Stay at Heriot-Watt

Dear Slimane

Following our telephone conversation and our discussion about your proposed research programme, I have the pleasure of inviting you for a sabbatical year from September 2010.

I am a member of the Vision, Image and Signal Processing group of the School of Engineering and Physical Sciences, Heriot-Watt University where you will be based during your time with us in Edinburgh.

Note that you are required to cover the full cost and make all the arrangements associated with this visit (which may include the payment of bench fees – we will discuss this during your preliminary visit in June 2010).

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Neil M Robertson'.
